Netwoven Document Management Consolidation Service

Introduction

Netwoven's Document Management consolidation service enables your organization to evaluate your Enterprise Document Management strategy and create an integrated environment that can save you licensing and maintenance costs.

Netwoven consultants are well versed in the area of Document Management and have worked with some of the world's largest organizations to help create their Document Management strategy. Our team of experts bring years of experience and knowledge of the various aspects of Document Management including Compliance, Taxonomy, Archival and Retention.

Document Repository

Netwoven consultants have worked with SharePoint, Documentum, Livelink, Exchange Public Folders, Lotus Notes, and Interwoven. Our team of consultants can work with you to develop a consolidated or Best Of The Breed strategy that can result in licensing and maintenance savings. Netwoven provides the following deliverables:

- Review of Document Management Requirements
- Recommendation

Taxonomy

Netwoven consultants have worked with organizations in various industries to define Enterprise Taxonomy for managing the content. The implementation of Enterprise Taxonomy has enabled our customers to reduce the time it takes to find information and helped with compliance through the use of Taxonomy. Netwoven provides the following deliverables:

- Review of Enterprise Taxonomy requirements
- Recommendation on the Enterprise Taxonomy

Migration

Netwoven consultants have strong experience with various Document Management products. Our team of experts is well versed in migrating content among various repositories and creating an integrated Document Management environment combining Taxonomy and Search providing a better user experience and reducing licensing and maintenance costs.

Netwoven consultant use third party tools that assist in the migration of documents between repositories.

Search

Netwoven consultants have extensive experience with Microsoft SharePoint Search and FAST search. Our team of experts have worked with organizations to create an effective search strategy to help find documents easily. We can also assist you with Google Appliance migration to create an integrated search experience.
