Netwoven Attains Gold Certified Partner Status in Microsoft Partner Program

Netwoven Further Distinguishes Itself by Earning Microsoft Competencies in Business Intelligence, Data Management Solutions and Information Worker Solutions

PLEASANTON, CA, January 29, 2010 — Netwoven today announced it has attained Gold Certified Partner status in the Microsoft Partner Program with competencies in Business Intelligence, Data Management Solutions and Information Worker Solutions, recognizing Netwoven’s expertise and impact in the technology marketplace. As Gold Certified Partner, Netwoven has demonstrated expertise with Microsoft technologies and a proven ability to meet customers’ needs. Microsoft Gold Certified Partners receive a rich set of benefits, including access, training and support, giving them a competitive advantage in the channel.

Netwoven provides enterprise information expertise to help businesses achieve higher productivity, greater collaboration and deeper insight by unlocking value from data and content.

“We are extremely pleased to have attained Gold Certified Partner status in the Microsoft Partner Program. This allows us to clearly promote our expertise and relationship with Microsoft to our customers,” said Niraj Tenany, CEO and founder. “The benefits provided through our Gold Certified Partner status will allow us to continue to enhance our customer offerings.”

“Customers are looking for partner companies that can bridge the gap between their business demands and technology capabilities,” said Allison Watson, corporate vice president of the Worldwide Partner Group at Microsoft Corp. “They need to trust in a company that can act as an expert adviser for their long-term strategic technology plans. Microsoft Gold Certified

Partners, which have certified expertise and direct training and support from Microsoft, can build a positive customer experience with our technologies. Today, Microsoft recognizes Netwoven as a new Gold Certified Partner for demonstrating its expertise in providing customer satisfaction using Microsoft products and technology.”

As one of the requirements for attaining Gold Certified Partner status, Netwoven had to declare a Microsoft Competency. Microsoft Competencies are designed to help differentiate a partner’s capabilities with specific Microsoft technologies.

The Business Intelligence Competency is designed for partners that specialize in Microsoft Business Intelligence Platform and Performance Management. These partners are fully equipped to help customers leverage the data to build more-effective business strategies.

The Data Management Solutions Competency is designed for partners that have proven their competency in end-to-end data-management reporting and analysis solutions based on Microsoft technologies such as SQL Server 2008 and its components.

The Information Worker Solutions competency is designed for partners who are equipped to address key customer challenges by developing solutions and deploying services based on the 2007 Microsoft Office system and SharePoint 2007. Specializations within this competency include Search, Data Visualization, Portals and Collaboration, and Enterprise Content Management.

Netwoven Inc. is a privately held technology and systems integration company founded in 2001 by individuals from Microsoft and SAP. Netwoven leverages development centers in the United States and India to reduce costs and improve productivity and collaboration through powerful enterprise information management solutions. It provides off-site and on-site services for diverse industry leading clients.
