Netwoven Attains Small Business Specialist Status in Microsoft Partner Program

PLEASANTON, Ca., January 29, 2010 — Netwoven today announced it has attained the Small Business Specialist status in the Microsoft Partner Program.

As a Microsoft Small Business Specialist, Netwoven specializes in the design, deployment and customization of small-business solutions using Microsoft technologies. Netwoven has extensive experience implementing and administering Microsoft Windows Small Business Server (SBS) 2008.

Microsoft Windows Small Business Server 2008 is an "all-in-one" server solution designed for small businesses. It provides many of the features used by larger companies such as e-mail, Internet connectivity, internal Web sites, remote access, support for mobile devices, file and printer sharing, backup and restore.

“We are extremely pleased to have attained the Small Business Specialist status in the Microsoft Partner Program. The benefits provided through our status will allow us to continually enhance our customer offerings,” said Niraj Tenany, CEO and founder.

Netwoven Inc. is a privately held technology and systems integration company founded in 2001 by individuals from Microsoft, SAP and Akamai. Netwoven leverages development centers in the United States and India to reduce costs and improve productivity and collaboration through powerful enterprise information management solutions. It provides off-site and on-site services for diverse industry leading clients.
