## NETWOVEN INC. Achieves Microsoft Gold Messaging Competency

*Netwoven Inc. demonstrates best-in-class capability and market leadership through demonstrated technology success and customer commitment.*

**Milpitas, California, USA — August, 2, 2016 — Netwoven Inc.**, today announced it has attained a Gold Messaging competency, demonstrating a “best-in-class” ability and commitment to meet Microsoft Corporation customers’ evolving needs in today’s dynamic business environment. Netwoven’s achievement sets them in the top one percent of Microsoft’s entire global partner ecosystem.

By earning this competency, Netwoven has demonstrated its commitment to helping organizations worldwide maximize their investment in Microsoft Exchange through the use of Netwoven’s solutions.

Attaining the Microsoft Gold Messaging Competency demonstrates partner expertise in email management and server integration solutions. Equipped with exclusive training, the latest software and support on Microsoft Exchange solutions, partners help customers create communications they can rely on without the maintenance and infrastructure costs of independently managed systems

According to Netwoven’s Chief Executive Officer, Niraj Tenany, “We are very pleased to have achieved the Microsoft Gold Messaging competency demonstrating Netwoven’s solution expertise and deep technical skills from many successful customer projects. Netwoven continues expand our InfrastructureConnect services that includes Cloud architecture, planning, deployment, application migration, and hybrid solutions using of Active Directory, Azure, Exchange Online, SharePoint Online and other Office 365 services.

“By achieving a gold competency, partners have demonstrated the highest, most consistent capability and commitment to the latest Microsoft technology,” said Phil Sorgen, corporate vice president, Worldwide Partner Group at Microsoft Corp. “These partners have a deep expertise that puts them in the top one percent of our partner ecosystem, and their proficiency will help customers drive innovative solutions on the latest Microsoft technology.”

To earn a Microsoft gold competency, partners must successfully complete technical exams (required for Microsoft Certified Professional attainment) to prove their level of technology expertise, and then designate these certified professionals uniquely to one Microsoft competency, ensuring a certain level of staffing capacity. They also must submit customer

references that demonstrate successful projects, meet a revenue commitment (for most gold competencies), and pass technology and/or sales assessments.

“Earning this Microsoft Gold Messaging Competency validates our expertise in Microsoft technologies,” said Netwoven CEO Niraj Tenany. " The Gold Messaging competency highlights our company’s deeper investment in archiving, compliance, e-discovery and migration, along with an ability to help customers with their journeys to the cloud with Microsoft Exchange Online.”

About Netwoven:

Netwoven Inc. is a leading Microsoft solutions provider (Gold Partner) providing solutions for Business Productivity, Business Automation, Infrastructure Services and Big Data Analytics to mid-market and large enterprises.
