

# Netwoven Achieves FastTrack Ready Partner Status from Microsoft

With the achievement of Microsoft's FastTrack Ready Partner status Netwoven ensures seamless deployment of Office 365 and helps customers accelerate their cloud journey.

**Milpitas, California, USA — January 9, 2019 — Netwoven Inc.** today announced that it has achieved FastTrack Ready partner status from Microsoft. This means now Netwoven can deliver improved Microsoft FastTrack benefits, better value for money and lower overall adoption cost during the implementation of Office 365 platform.

Companies who work with a Microsoft FastTrack Ready partner can enjoy the following benefits:

- Get access to customized and enhanced Microsoft solutions/services at a cost-friendly budget.
- Work with Certified Microsoft Engineers to have quality deployment services
- Gain access to Microsoft resources to facilitate scenarios like change management, business transformation etc.

With FastTrack Ready partner status, Netwoven has gained larger access to technical support and various useful Microsoft resources for implementation of Office 365 and other platforms. The status enables fast, efficient and stress-free migration/implementation of O365 for global customers.

“Netwoven’s FastTrack status simplified the communication processes as well,” said Niraj Tenany, President and CEO of Netwoven. He further adds that “From now on our customers can interact solely with us and discuss any aspect of the project; while still experiencing the expertise and support of the Microsoft FastTrack Team.”

FastTrack partnership is a testament to the skill and expertise Netwoven has developed over the years when it comes to implementation or deploy of any Cloud Solutions, Office 365 or EMS products like SharePoint Online, Skype for Business, Microsoft Teams, OneDrive, Yammer, Azure Active Directory etc.
