

# Netwoven Recognized in Gartner's Market Guide for Implementation and Migration Services

Gartner recognizes Netwoven as one of the distinguished vendors offering Implementation and Migration Services for Office 365 products in their recent report.

**Milpitas, California, USA — February 12, 2019 — Netwoven Inc.** a leader in implementation and migration services for Microsoft Office 365, SharePoint and Skype has been identified in Gartner's [Market Guide for Implementation and Migration Services](#) as a leading migration vendor.

The guide aims to provide a clear understanding on vendor offerings to businesses looking for Office 365 migration and adoption services. According to this Market Guide, "Various organizations are actively turning to cloud for their applications to seek improved functionality at a reduced cost." Those sourcing leaders can use this guide to select providers and accelerate the migration of Office 365.

Moreover, Gartner estimates that "By 2021 more than 70% of business users will be substantially provisioned with the cloud." Besides, 86% of the respondents reported Gartner that they already moved or are planning to move to Office 365 from the beginning of 2019. Thus, this report highlights a vast number of service providers to choose from and mitigate the risk of migration. In the report, Gartner also adds that any migration projects can take about six months on average along with ongoing support.

When it comes to migration services, Netwoven specializes in SharePoint on-premise to Office 365, Office 365 cloud-to-cloud migrations, Jive Migration, Slack to Teams Migration, and many more. Our migration service is built on years of experience that includes robust processes, technologies, and quality assurance processes.

"Digital is the future, and we are investing in building skillsets to meet various market demands. As a FastTrack Partner of Microsoft, we helped more than 100+ customers on their digital transformation journey with our migration services. Netwoven's inclusion in this Gartner list for two successive years reflects our proven migration capabilities," said Niraj Tenany, CEO of Netwoven.

As an organization, Netwoven is committed to providing the following Office 365 services:

- Email Migration
- Skype for Business Migration
- SharePoint
- Office 365 Managed Services
- Office 365 Adoption Services

If your organization is one which has not moved to the cloud yet, it's time to consider Netwoven's migration services.
