

Netwoven Announces Slew of Measures to Consolidate its Cloud Infrastructure Services

The company aims to address growing security concerns for organizations through its comprehensive security and compliance offerings

Milpitas, California, USA — August 5, 2019 — Netwoven Inc., a Microsoft Gold partner and a leader in technology consulting services using the Microsoft cloud has today announced a series of measures to consolidate its Cloud Infrastructure offerings adding to the already-existing software-as-a-service (SaaS) and platform-as-a-service (PaaS) capabilities. The announcement comes at a time when the worldwide infrastructure as a service (IaaS) experiences the fastest growth in the public cloud services market, according to a research report by [Gartner](#).

The company firmed up its [cloud infrastructure services](#) in the following categories.

- Cloud Migration Services
- Intelligent Communications
- Security and Compliance
- Modern Desktop
- Modern Data Center

“Netwoven is expanding its cloud capabilities at an impressive speed and we are excited to announce our latest Cloud Infrastructure offerings to help customers with their digital transformation goals and help reduce risk”. – says **Keif Machado**, who leads Netwoven’s Cloud Infrastructure practice.

“Organizations are increasingly looking for a modern workplace that can address their security concerns and complex protection needs which enable us to drive customer adoption of Microsoft 365 and Azure further.” – added **Niraj Tenany**, Chief Executive Officer, Netwoven.

The Milpitas based company has been recently recognized by Gartner as one of the distinguished vendors offering Implementation and Migration Services for Office 365 platform.
